

MOTION DESIGN CRASH COURSE

Motion Design Crash Course : Lesson 1 Homework Assignment

MOTION DESIGNER

ANDRE ELLIS

Assignment

Create your own short animated name lockup in After Effects. Use geometric shapes and text to design a simple, centered composition. Animate the shapes and text to reveal your name in a clean, intentional way.

Requirements

- Animate at least three transform properties (position, rotation, scale).
- Use a rectangular mask to reveal text.
- Include a subtitle or tagline that animates with position and opacity.
- Keep the animation minimal and focused on clarity and timing.

What to Submit:

- A final render in .mp4 format.
- The collected After Effects project file with all assets included.
